

# Aeronautics

Client :

AIRBUS/  
AIR FRANCE

## Issue:

Enable airline flight crews to quickly perform an automatic pre-takeoff inventory of safety equipment (life vests, oxygen canisters, etc.) and check their conformity

## Solution:

- UHF mobile terminal
- Touchscreen tablet
- Range of tags and IronTags®

## BENEFITS:

Reliable, fast and easy-to-use

Precise mapping of present or missing equipment and their validity dates

Reduced risk of having non-compliant safety equipment aboard
