

"THE FIRST  
HAND-TRIGGERED  
ACCESS CONTROL  
READER"

STid Security presents

# UNLEASH YOUR HAND'S POTENTIAL

French expert in RFID, NFC, Bluetooth® and IoT, our contact free identification solutions have been designed to eliminate barriers in your business via innovative independence-focused technologies.

Thanks to the **STid Mobile ID®** app and the **Architect® Blue** Bluetooth® reader, your smartphone turns your hand into a badge you have with you at all times. With the freedom to choose your favourite identification mode and make your access options both secure and much more intuitive.
